ISSUES CONCERNING THE STUDENTS OF X

- ❖ A breakthrough program for X students.
- ❖ One major requirement to clear various competitive entrance exams - is a strong understanding of fundamentals and a high level of IQ.
- ❖ It is also imperative for a student to excel in X board exams so as to make him / her eligible for science stream in class XI—which is a pre-requisite for pursuing engineering as a career.
- ❖ Most students rush past X class, concentrating only on the immediate objective of a high score in the board exam and start preparations competitive examinations from class XI onwards.
- ❖ The way Science and Maths is taught at X standard, it does not help a student to prepare for either National Talent Search Exams (NTSE), NSEJS / IJSO or other State Science Talent Search examinations.
- ❖ As a result students tend to ignore competing in and preparing for exams like NTSE, NSEJS etc. – not realizing that these exams give him / her the much required exposure to the world of competitive exams, in addition to all the glory they bring along.
- ❖ There is a quantum jump in the level of difficulty of subjects for students in Class XI as compared to Class X.
- ❖ The students in any case have to struggle to cope up with Class XI syllabi, add to that competitive exams preparation with absolutely no exposure to competitive exams, the job becomes much more daunting.
- ❖ Therefore it is essential that a student develops a strong foundation for competitive entrance exams while in Class X only – enabling him / her to perform at an optimum level in class XI / XII.
