Program Focus & Objectives:

The Long Term Goal of this Program is to help each & every Student get a Top Rank in JEE. Moreover, equal emphasis is given on attaining maximum score in Boards as well as excellent performance in various other Engineering Entrance Exams. As NTSE is a major milestone in Class X, Students are meticulously prepared for delivering a remarkable performance in this Exam. KVPY is another such Exam which is a vital milestone in Class XI & XII. Students will be holistically trained & prepared to ace this important Exam too. These Four years of intensive IIT-JEE training will help Students to gain an edge over the competition.

Why Four Year Classroom Program?

IITs have restricted the number of attempts for JEE (Advanced). Students now just have two chances – one just after the XII board exams and the second immediately in the next year. They should try to succeed in JEE(Advanced) in the first attempt itself and not take unnecessary pressure as uncertainty of ill-health or any accidents while appearing for the second & last attempt could be too risky.

Till the eighties, it was alright if you started your preparation just after XI and at the beginning of XII, but even then to get Top Ranks you had to begin your preparation at the commencement of XI itself. In late nineties it became a norm to start preparation at the beginning of class XI and devote at least two years to train rigorously for JEE.

Now, with the increase in competition and keeping in mind that only two chances are available, only the very talented students can succeed by starting their JEE training in XI. But, if you do not have an inborn spark that can put you in Top rank students in JEE you have no other choice but to start as early as class IX to achieve the desired success in JEE.
